

# FFB 428 S

## Aluminium boat

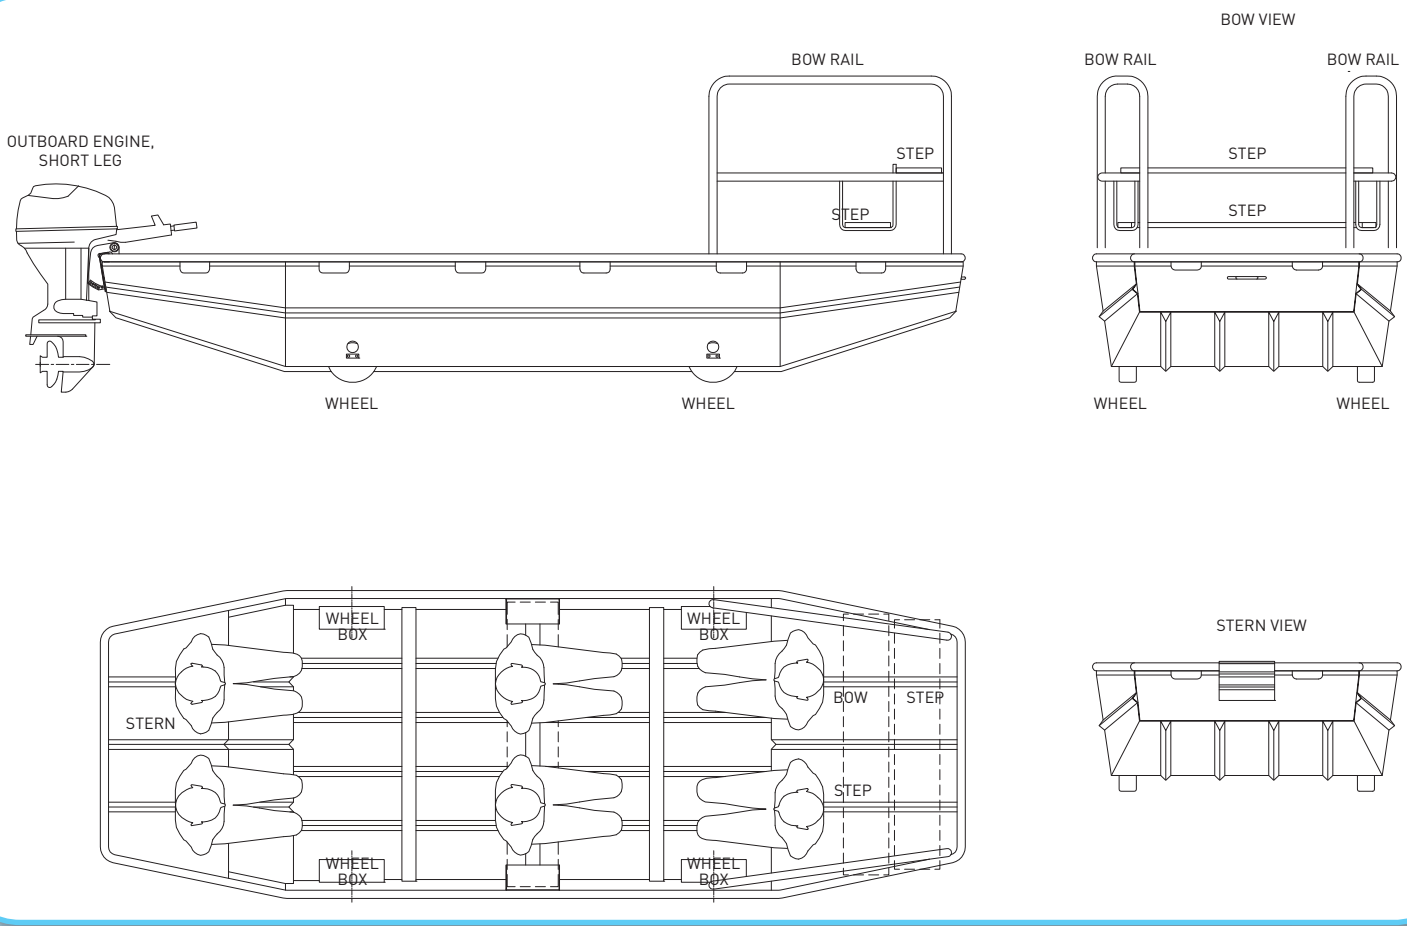

# FLAMMIFER

## Characteristics

- ❖ Boat FFB 428 S is designed for flood rescue operations and its shape allows easy docking.
- ❖ Two bow rails to facilitate the boarding off the boat, wooden crossbenches.
- ❖ The boat is designed for propulsion by outboard engine with max. power up to 10 hp, which facilitate maneuvering in flooded areas and allow the transport of up to 6 persons.

## Features

- ❖ Construction material: aluminium alloy for shipbuilding
- ❖ Two buoyancy chambers with the capacity of approx. 500 litres
- ❖ Boats' decks and bottom are made of slip resistant corrugated sheet metal
- ❖ The boat has two removable bow rails to facilitate the boarding off the boat
- ❖ The boat is equipped with 4 pneumatic wheels, for easier movement on rugged and slippery terrain

## Dimensions FFB 428 S

Length	4,28 m
Width	1,52 m
Height without bow rails	0,47m
Load draft	0,23 m
Boat weight (without engine)	128 kg
Max. capacity:	6 persons
Max. engine power:	10 KS / 7,35 kW
Recommended engine power	6 KS / 4,41 kW
